THE MOLNAR FAMILY EXPANDS THEIR SERVICES FOR DOWNRIVER FAMILIES

John Molnar and his daughter, Angela Molnar-Ferguson, have recently added second lounges within both their Southgate funeral home, located at 14032 Northline, and Brownstown funeral home, located at 23700 West Rd.

The reception area within their Brownstown facility is beautifully decorated and has a water feature that provides a very relaxing setting. This room is set up to accommodate families during a visitation but can also be used for a small luncheon after services have concluded.

The idea for the new areas started with the numerous requests from families asking to be able to stay within the funeral home for their luncheon. Many families also requested that food be brought to the funeral home so that they don't have to leave during the visitation.

The Molnar Family responded by creating spacious new lounges in each of their facilities for the families. Both the Southgate and Brownstown funeral homes now have two lounges.

Provided in all the funeral homes' lounges are coffee, hot tea, and freshly baked cookies

available for the families and their friends who are visiting. The lounges also have refrigerators and ample counter space for the families to use.

The newest update to their facilities is the addition of the second reception area in their Brownstown Chapel. This spacious new lounge has a water feature that is very relaxing to sit and listen to. Both funeral homes provide many quiet areas where families can find solitude in a home-like setting.

The Molnar Family feels that their decision to provide two lounges in each facility could not have come soon enough as the response from families utilizing these areas has been overwhelmingly positive. John and Angela have always taken pride in their facilities, and they are proud to offer such a well-received addition to the funeral homes. ■
